AUTHOR CONTRIBUTION FORM

Title	<i>Detection of monoclonal T populations in patients with KIR-restricted chronic lymphoproliferative disorder of NK cells</i>
First author	<i>Cristina Gattazzo</i>

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (<i>author responsible for the integrity of the work as a whole</i>)
Name: Prof. Gianpietro Semenzato
Institute: Dept. of Medicine, Padua University School of Medicine
e-mail: g.semenzato@unipd.

Author contributions

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.):

CG collected and analyzed the data and wrote the manuscript;
AT and FrPa performed the PCR analysis;
VM, VT and SC performed flow cytometry analysis of patients and healthy controls enrolled in the study;
EDM, TB, GB and FF collected and analyzed clinical data;
FP and LT contributed to clinical patient sample enrollment and revised critically the manuscript;
MF and GS provided intellectual input into the study and reviewed the manuscript for final approval of the version to be published;
RZ designed the research, contributed to clinical patient sample enrollment, participated in analysis of data and wrote the manuscript.
