

## **AUTHOR CONTRIBUTION FORM**

Title	The truncated RUNX1/ETO activates VLA-4-dependent adhesion and migration of hematopoietic progenitor cells
First author	Kanagaraju Ponnusamy

According to the International Committee of Medical Journal Editors (ICMJE) (<a href="http://www.icmje.org/ethical-1author.html">http://www.icmje.org/ethical-1author.html</a>):

"Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (author responsible for the integrity of the work as a whole)	
Name: Christian Wichmann	
Institute: Department of Transfusion Medicine, Cell Therapeutics and Hemostaseology	
e-mail: christian.wichmann@med.uni-muenchen.de	

## **Author contributions**

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.):

Contributions: KP performed experiments and analyzed the data. LCW and ONK performed experiments. JL and RH conceived the study, supervised the project and wrote the manuscript. CW conceived the study, analyzed the data, supervised the project and wrote the manuscript.
