AUTHOR CONTRIBUTION FORM

Title	<i>Invasive fungal infections in patients with multiple myeloma: a multi-center study in the era of novel myeloma therapies</i>
First author	<i>Dr Benjamin W Teh</i>

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

"Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (<i>author responsible for the integrity of the work as a whole</i>)
Name: Dr Benjamin W Teh
Institute: Peter MacCallum Cancer Centre
e-mail: ben.teh@petermac.org

Author contributions

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.) :

Dr. Benjamin Teh (BT) was the primary investigator, developed the study design and protocol in conjunction with all authors: Ms. Karin Urbancic (KU), Drs. Jasmine Teng (JT), Simon Harrison (SH), Andrew Grigg (AG), Leon Worth (LW), Monica Slavin (MS) and Karin Thursky (KT). BT, JT and KU were involved in data collection and all authors were involved with data review and analysis. All authors were involved in manuscript writing, critical review and approved its submission for publication.
