## AUTHOR CONTRIBUTION FORM

<b>Title</b>	Excess of heme induces tissue factor-dependent activation of coagulation in mice
<b>First author</b>	Erica M Sparkenbaugh

According to the International Committee of Medical Journal Editors (ICMJE)

([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)):

*“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.*

**The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

<b>Responsible author</b> ( <i>author responsible for the integrity of the work as a whole</i> )
Name: Rafal Pawlinski
Institute: University of North Carolina at Chapel Hill

### Author contributions

*Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.) :*

E.M.S. and P.C. designed the experiments, performed the experiments, and interpreted the data; S.W. and W.J. performed experiments; D.K. provided valuable reagents; A.G., D.G., and N.M. provided mice; R.K., N.M., and N.S.K. aided in data interpretation and editing the manuscript; R.P. designed the experiments, interpreted the data, and contributed to the overall design of the study. E.M.S. and R.P. wrote the manuscript.
