AUTHOR CONTRIBUTION FORM

Title	Everolimus (RAD001) Activity in Relapsed and/or Refractory Multiple Myeloma: A Phase I Study
First author	Andreas Guenther

According to the International Committee of Medical Journal Editors (ICMJE)
(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (<i>author responsible for the integrity of the work as a whole</i>)
Name: Andreas Guenther
Institute: Division of Stem Cell Transplantation and Immunotherapy, 2nd Department of Medicine, University of Kiel Arnold-Heller-Str. 3, House 43 24105 Kiel, Germany
e-mail: : a.guenther@med2.uni-kiel.de

Author contributions

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.) :

Contribution: AG designed and conducted the study, analyzed the data and wrote the manuscript. MG designed the study and wrote the manuscript. PB and RS contributed data and wrote the manuscript. CK, RB and WK conducted experiments regarding biomarkers and the impact of everolimus on the immune system.
