AUTHOR CONTRIBUTION FORM

Title	<i>Evidence for idiotype-directed immunosurveillance is restricted to follicular lymphoma and attributable to somatic hypermutation</i>
First author	<i>Dimitrios Papaioannou</i>

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (<i>author responsible for the integrity of the work as a whole</i>)
Name: Hendrik Veelken
Institute: Leiden University Medical Center
e-mail: j.h.veelken@lumc.nl

Author contributions

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.) :

DP, AMS, M DvM, MAN, HV generated and analysed data
AKH, KZ, KM, CAMvB recruited patients and provided samples
DP, HV wrote the manuscript
HV was the principal investigator and takes primary responsibility for the paper
