Version 3

Impact of additional genetic alterations on the outcome of patients with
<I>NPM1</I>-mutated cytogenetically normal acute myeloid leukemia

Disclosures: The authors report no potential conflicts of interest.

Contributions: Contribution: P.P. and H.D. designed the research and collected the data assisted by K.C.L. in data collection. C.Preudhomme and A.R. centrally performed and reviewed gene mutation. R.B., O.N., X.T., S.D.B., E.R., J.-M. C., N.B., C.T., S.C., C.Pautas., C.G. and H.D. enrolled patients in ALFA protocols. H.D. performed the statistical analysis. H.D., P.P. and C.G. wrote the manuscript; and all authors approved the final draft of the manuscript.
