

Haematologica  
HAEMATOL/2014/123273  
Version 3

Randomized trial of radiation-free central nervous system prophylaxis  
comparing intrathecal triple therapy with liposomal cytarabine in acute  
lymphoblastic leukemia

Disclosures: RB has received honoraria from Mundipharma International. The other authors report no potential conflict of interest.

Contributions: RB was the principal investigator with primary responsibility for the paper; RB, TI, EA, GR, EMP, VC, DM, CR, AC, CC, AMS, MP, FM, EB, MF, SC, AG and AR recruited the patients; AM, EO and RMM analysed the data and performed the statistical analyses; RB, AM and AR designed the research and wrote the paper.
