HAEMATOL/2015/124321  
Version 3  
Recurrent deletions of IKZF1 in pediatric acute myeloid leukemia

Disclosures: J. de Rooij was funded by Kinder Oncologisch Centrum Rotterdam (KOCR). A. Obulkasim was funded by KIKA (project #109). M.Fornerod was funded by KWF project EMCR 2012-5546. The authors declare no potential conflict of interest.

Contributions: Jasmijn de Rooij (JdR), Eva Beuling (EB), Michel Zwaan (CMZ) and Maarten Fornerod (MF) designed the study. Andre Baruchel, Jan Trka, Dirk Reinhardt, Edwin Sonneveld, Brenda Gibson, Marry van den Heuvel-Eibrink (MvdHE), CMZ and Rob Pieters (RP) provided patient samples and clinical data. JdR and EB performed the laboratory work. Askar Obulkasim (AO) and Martin Zimmermann performed statistical analysis. JdR, EB, MvdHE, CMZ and MF interpreted the data. JdR, EB, AO and MF generated the tables and figures. MvdHE, CMZ, RP and MF supervised the study. JdR, EB, MvdHE, CMZ and MF wrote the paper, and all authors critically reviewed the paper.
