Version 3

Repeat course of rabbit antithymocyte globulin as salvage following
initial therapy with rabbit antithymocyte globulin in acquired aplastic
anemia

Disclosures: The authors have no conflict of interest to report.

Contributions: DVC conceptualized the analysis, collected and organized the data, conducted the analysis, and drafted the manuscript. VC, EHA, DSPD, CBLL, MB and GS collected patient data and participated in interim discussions. DVC, RTC, and PS participated in study conceptualization, data analysis as well as interim discussions; oversaw the analysis; and wrote the paper. All authors approved the manuscript.
