Acknowledgements

We thank all European Group for Blood and Marrow Transplantation (EBMT) centers and national registries for contributing patients to the study and data managers for their super work. Supplementary information is available at the EBMT Web site.

Appendix I

The European Group for Blood and Marrow Transplantation (EBMT) registry is a voluntary working group of >500 transplantation centers required to report all consecutive stem-cell transplantations and follow-ups once per year. The Acute Leukemia Working Party (ALWP) of the EBMT approved this study. Audits are routinely performed to determine the accuracy of the data. Since 1990, patients have been providing informed consent authorizing the use of their personal information for research purposes.
