Version 3
The Efficacy of Current Prognostic Models in Predicting Outcome of
Patients with Myelodysplastic Syndromes at the Time of
Hypomethylating Agent Failure

Aziz Nazha, Rami S. Komrokji, Guillermo Garcia-Manero, John
Barnard, Gail J. Roboz, David P. Steensma, Amy E. DeZern, Katrina
Zell, Cassie Zimmerman, Najla Al Ali, Elias Jabbour, Molly D.
Greenberg, Hagop M. Kantarjian, Jaroslaw P. Maciejewski, Alan F. List,
and Mikkael A. Sekeres

Contributions: AN, MAS, and RSK designed the study, analysed and interpreted the data,
wrote and approved the manuscript. NA, JB, KZ, CZ, and MG collect the data and
performed the statistical analyses. GGM, GR, DS, AD, EJ, AL, HK, and JP analysed the
data reviewed and approved the manuscript.
