Version 3

Two novel germline DDX41 mutations in a family with inherited  
myelodysplasia/acute myeloid leukemia

Ruijuan Li, Nara Sobreira, Dane Witmer, Keith W. Pratz, and Evan M.  
Braunstein

Disclosures: None

Contributions: E.M.B. conceived the project and designed the experiments. E.M.B. and R.L. performed the experiments. E.M.B., R.L., N.S. analyzed the data. D.W. performed exome sequencing, analysis and quality control. E.M.B. and K.P. identified study subjects, performed clinical phenotyping and contributed biological samples. E.M.B. wrote the manuscript.
