Version 4

Immunophenotypic analysis of erythroid dysplasia in myelodysplastic syndromes. A report from the IMDSFlow working group.

Theresia M. Westers, Eline M.P. Cremers, Uta Oelschlaegel, Ulrika Johansson, Peter Bettelheim, Sergio Matarraz, Alberto Orfao, Bijan Moshaver, Lisa Eidenschink Brodersen, Michael R. Loken, Denise A. Wells, Dolores Subira', Matthew Cullen, Jeroen G. te Marvelde, Vincent H.J. Van der Velden, Frank W.M.B. Preijers, Sung-Chao Chu, Jean Feuillard, Estelle Guérin, Katherina Psarra, Anna Porwit, Leonie Saft, Robin Ireland, Timothy Milne, Marie C. Béné, Birgit I. Witte, Matteo G. Della Porta, Wolfgang Kern, and Arjan A. van de Loosdrecht

Disclosures: The authors declare that there are no conflicts of interests to disclose.

Contributions: AAvdL, TMW, EMPC and WK designed the study. All persons listed as co-authors contributed to pre-conference and post-conference discussions and actively participated in the IMDSFlow Conferences (Pavia, Italy, 2011; Amsterdam, The Netherlands, 2012 and Munich, Germany, 2013). AAvdL was chair and MGDP, TMW and WK were co-chairs of the annual working conferences in Pavia, Amsterdam and Munich (2011, 2012 and 2013), respectively. All co-authors contributed by discussing criteria, standards, algorithms, and recommendations at the Working Conferences. In addition, all persons listed as co-authors provided essential input via supply of data, reviewing the manuscript and by approving the final version of the document. Authors are listed in order of data contribution to the study cohort by a particular center and in alphabetical order per center, except for TMW, EMPC and AAvdL who analyzed the data, wrote and coordinated reviewing the paper.
