

# miR-125b and miR-532-3p predict efficiency of the rituximab-mediated lymphodepletion in chronic lymphocytic leukemia patients

rituximab mediated Lymphodepletion  $\uparrow\uparrow\uparrow$

rituximab mediated Lymphodepletion  $\uparrow$

miR-125b and miR-532-3p

inversely correlated with

positively correlated with

- rituximab-induced lymphodepletion
- CD20 expression on CD19+ cells
- MS4A1 expression
- MS4A3 and MSA47
