Prospective study of thrombosis and thrombospondin-1 expression in
Chuvash polycythemia

Adelina Sergueeva, Galina Miasnikova, Binal N. Shah, Jihyun Song,
Ekaterina Lisina, Daniel J. Okhotin, Mehdi Nouraie, Sergei Nekhai,
Tatiana Ammosova, Xiao Mei Niu, Josef T. Prchal, Xu Zhang, and
Victor R. Gordeuk

Disclosures: This work was supported in part by Amgen Corporation, Incyte Corporation, and by NIH Research Grants P01CA108671, 1P50HL118006 and 1R01HL125005. The content is solely the responsibility of the authors and does not necessarily represent the official view of NHLBI or NIH. Adelina Sergueeva, Galina Miasnikova, Josef Prchal and Victor Gordeuk have served as consultants for Incyte Corporation. Daniel Okhotin, Josef Prchal and Victor Gordeuk have served as consultants for Amgen Corporation. Josef Prchal and Victor Gordeuk have received travel support from Amgen Corporation and Incyte Corporation.

Contributions: All authors critically reviewed the manuscript. Adelina Sergueeva, Galina Miasnikova and Daniel Okhotin participated in designing and conducting the study, and identifying study subjects. Binal Shah and Jihyun Song prepared granulocyte and platelet RNA and obtained reticulocyte RNA, and performed other laboratory tests. Mehdi Nouraie participated in data analysis and in writing the manuscript. Ekaterina Lisina, Sergei Nekhai, Tatianna Ammosova and Xiao Mei Niu participated in conducting the study and writing the manuscript. Josef Prchal participated in designing the study, genotyping, data analysis and interpretation, and writing the manuscript. Xu Zhang performed the genetic and genomic analyses and contributed to writing the manuscript. Victor Gordeuk conceived the study, organized logistics and recruitment of the participants, participated in data analysis and interpretation, and wrote the manuscript.
