

Haematologica  
HAEMATOL/2017/166389  
Version 3

Acute myeloid leukemia stem cell function is preserved in the absence  
of autophagy.

Amy H. Porter, Lucie Leveque-El Mouttie, Therese Vu, Claudia  
Bruedigam, Joanne Sutton, Sebastien Jacquelin, Geoffrey R. Hill, Kelli  
P.A. MacDonald, and Steven W. Lane

Disclosures: SWL is a CSL Centenary Fellow. This work was supported by a NHMRC  
project grant to KPAM and SWL APP1011787.

Contributions: AHP, TV, LL, CB, JS, SJ performed research. AHP and SWL designed  
experiments and wrote the manuscript. GRH, KPAM and SWL supervised the study and  
provided essential intellectual input.
