HAEMATOL/2016/160374
Version 3

Improved classification of leukemic B-cell lymphoproliferative disorders
using a transcriptional and genetic classifier

Alba Navarro, Guillem Clot, Alejandra Martínez-Trillos, Magda Pinyol, Pedro Jares, Blanca González-Farré, Daniel Martínez, Nicola Trim, Verónica Fernández, Neus Villamor, Dolors Colomer, Dolors Costa, Itziar Salaverria, David Martín-García, Wendy Erber, Cristina López, Sandrine Jayne, Reiner Siebert, Martin J.S. Dyer, Adrian Wiestner, Wyndham H. Wilson, Marta Aymerich, Armando López-Guillermo, Àlex Sánchez, Elías Campo, Estella Matutes, and Sílvia Beà

Disclosures: None

Contributions: A.N, G.C, and S.B. designed the study. A.N and G.C analyzed microarray and qPCR data. G.C. and A.S. performed statistical analysis. A.N., I.S., D.M-G., and S.B. performed SNP-array analysis. A.N., V.F., M.P., P.J., and S.B. performed and interpreted molecular studies. A.M-T, E.M., and E.C. performed the histopathological revision, A.M-T, E. M., and N.V., performed flow cell cytometry analysis and interpretation. B.G-F., D.M., N.V., N.T., D.Cos., D. Col., W.E., C.L., A.W., W-H.W., S.H., R.S., M-J.D., M.A. A.L-G., and E.C. provided cases, collected clinical and pathological data. A.N, G.C., E.C., E.M., and S.B. wrote the manuscript.
