Version 3

Endotoxemia shifts neutrophils with TIMP-free gelatinase B/ MMP-9
from bone marrow to periphery and induces systematic upregulation of
TIMP-1

Jennifer Vandooren, Wannes Swinnen, Estefania Ugarte-Berzal, Lise
Boon, Daphne Dorst, Erik Martens, and Ghislain Opdenakker

Disclosures: This research was funded by the Research Foundation of Flanders
(FWO-Vlaanderen) and KU Leuven (C16/17/010). JV is supported by the Rega Foundation,
Leuven.

Contributions: JV, WS, EUB, LB, DD and EM performed research, JV performed data
analysis, JV and GO wrote the manuscript, GO supervised the study.
