WT1 loss attenuates the TP53-induced DNA damage response in
T-cell acute lymphoblastic leukemia

Fulvio Bordin, Erich Piovon, Elena Masiero, Alberto
Ambesi-Impiombato, Sonia Minuzzo, Roberta Bertorelle, Valeria
Sacchetto, Giorgia Pilotto, Giuseppe Basso, Paola Zanovello, Alberto
Amadori, and Valeria Tosello

Disclosures: None

Contributions: Contribution: F.B. performed most of the experiments; E.P. performed experiments, supervised research with V.T. and contributed to write the manuscript; E.M. provided technical assistance; A.A.I. helped with data analysis; S.M. expanded and characterized T-ALL xenografts; R.B. and V.S. performed TP53 mutational analysis; G.P. executed cell sorting; G.B. contributed to T-ALL xenografts characterization and critically reviewed the manuscript; P.Z. and A.A. provided reagents and critically reviewed the manuscript; V.T. designed the study, supervised research and wrote the manuscript.
