Version 3

Incidence and predictors of infection among patients prior to treatment
of chronic lymphocytic leukemia: a Danish nationwide cohort study

Michael Asger Andersen, Casper Tabassum Eriksen, Christian
Brieghel, Jorne Lionel Bicler, Caspar da Cunha-Bang, Marie
Helleberg, and Carsten Utoft Niemann

Disclosures: Conflict of interest: CN has received consultancy fees and/or travel grants from Janssen, Abbvie, Novartis, Roche and Gilead, research support from Abbvie, outside this project.

Contributions: MAA performed the research and the data analysis, MAA and CE wrote the manuscript, JLB supervised the data analysis and added statistical expertise, CDC, CB, MH and CUN contributed to the manuscript and the idea of the study. CUN supervised the study.
