Genomic characterization of spleens in patients with myelofibrosis

Eran Zimran, Joseph Tripodi, Raajit Rampal, Franck Rapaport, Sharon Zirkiev, Ronald Hoffman, and Vesna Najfeld

Disclosures: This work was supported by the Myeloproliferative Neoplasm Research Consortium Program project-grant funded by National Cancer Institute 5P01CA108671-09 of the National Institute of Health. F.R was supported in part by grant #UL1.TR001866 from the National Center for Advancing Translational Sciences (NCATS), National Institute of Health, Clinical and Translational Science Award Program (CTSA). The authors declare no conflict of interest.

Contributions: EZ and JT analyzed data and wrote the manuscript, RR and FR performed next generation sequencing and analyzed data, SZ analyzed array-CGH+SNP and NGS data, RH and VN designed the study, and supervised the data analysis and writing of the manuscript. EZ and JT contributed equally to this work.
