Version 3

Efficacy of venetoclax monotherapy in patients with relapsed, refractory mantle cell lymphoma post BTK inhibitor therapy

Toby A. Eyre, Harriet S. Walter, Sunil Iyengar, George Follows, Matthew Cross, Christopher P. Fox, Andrew Hodson, Josh Coats, Santosh Narat, Nick Morley, Martin J.S. Dyer, and Graham P. Collins

Disclosures: Conflicts of interest: TE, MD, HW - travel funding from Abbvie

Contributions: Conception and design: TE made substantial contributions to conception and design. Collection and assembly of data: TE co-ordinated the collection of national data. HW, SI, GF, CF, MC, NM, JC, AH, SN and MD all managed patients in the study and were involved in collection and assembly of data. Data analysis and interpretation: TE, GC were involved in data analysis and interpretation. TE performed the statistical analysis. Manuscript writing: TE wrote the manuscript, which all authors critically reviewed. Final approval of manuscript: All authors were involved in research design, or the acquisition, analysis or interpretation of data, critically revising the manuscript and the final approval.
