Version 4

Re-evaluation of hematocrit as a determinant of thrombotic risk in
erythrocytosis

Victor R. Gordeuk, Nigel S. Key, and Josef T. Prchal

Disclosures: This work was supported in part by grants from the National Institutes of Health [R01HL079912 (Gordeuk), R01HL137991 (Prchal), and institutional funds from the University of Illinois at Chicago.

Contributions: VRG and JTP drafted the paper. NK provided key intellectual content, edited and revised the paper and continue to collaborate with JTP and VRG on the role of elevated TF in PV and CE.
