Version 3
CD150^{high} CD4 T cells and CD150^{high} Tregs regulate hematopoietic
stem cell quiescence via CD73

Yuichi Hirata, Miwako Kakiuchi, Simon C Robson, and Joji Fujisaki

Disclosures: We have nothing to disclose for this study.

Contributions: Conceived and designed the experiments: JF. Performed in vitro and in vivo assays to examine HSCs and CD39/CD73 expression: YH and MK. SCR provided an intellectual input into the analysis of CD39 flox mice. Analyzed and interpreted all the data: YH, MK, and JF. Wrote the paper: YH, MK and JF.
