The Khorana score for prediction of venous thromboembolism in cancer patients: a systematic review and meta-analysis

Frits I. Mulder, Matteo Candeloro, Pieter W. Kamphuisen, Marcello Di Nisio, Patrick M. Bossuyt, Noori Guman, Kirsten Smit, Harry R. Büller, Nick van Es, and CAT prediction collaborators

Collaborative Groups: CAT-prediction collaborators (H Abdel-Razeq, S Ades, SR Ayappan, S Borchmann, CA Cella, C D Fankhauser, P Ferroni, H E Fuentes, S Kruger, S H Lim, S Lubberts, D B Lustig, A S Mansfield, AJ Munoz-Martin, S Noble, E Panizo, G Papaxoinis, K Park, J N Patel, F Posch, J D Ramos, M Roselli, R Santi, A. Srikanthan, A J Tafur, A Terbuch, M Thomas, O Vathiotis, R Wang, M N Zahir, D Sohal)

Disclosures: This study was supported by an unrestricted grant from LeoPharma. The sponsor had no influence on study design, data collection, analysis, writing of the manuscript, or in the decision to submit the manuscript for publication. P.W. Kamphuisen reports research funding from Daiichi Sankyo and Pfizer, and an advisory role for Roche and Daiichi Sankyo. M. di Nisio reports an advisory role for Daiichi Sankyo, Bayer, Aspen and Pfizer. N. van Es reports personal fees from Daiichi Sankyo, and Pfizer. All other authors declare no competing interests.

Contributions: NVE, FIM, MC, HRB, and PMMB were responsible for the conception and design of the study. NVE, NG, KS, FIM and MC collected and assembled data. PMMB, NVE and FIM performed the analysis of the data. All authors interpreted the data and contributed to writing of the manuscript. All approved the final manuscript and agree to be accountable for all aspects of the work.
