Version 2

Transfer of ADAMTS13 antibodies-mediated thrombotic  
thrombocytopenic purpura via kidney transplantation

Lara Zafrani, Charlotte Dekimpe, Bérangère S. Joly, Elien Roose,  
Fabienne Fieux, Elie Azoulay, Marie-Noëlle Peraldi, Antoine Durrbach,  
Paul Coppo, Karen Vanhoorelbeke, and Agnès Veyradier

Disclosures: none

Contributions: LZ wrote the manuscript, collected, analyzed and summarized the clinical data. CD performed the experiments with the animal model, analyzed the data and co-wrote the manuscript. BJ and ER performed the biological investigation for ADAMTS13, analyzed the data and co-wrote the manuscript. FF, EA, MNP, AD and PC enrolled the patients, provided access to clinical and standard biology data and critically reviewed the manuscript. KV and AV supervised the study, co-wrote and critically reviewed the manuscript.
