Impact of corticosteroid pretreatment in pediatric patients with newly  
diagnosed B-lymphoblastic leukemia: a report from the Children's  
Oncology Group

Elizabeth A. Raetz, Mignon L. Loh, Meenakshi Devidas, Kelly Maloney,  
Leonard A. Mattano, Eric Larsen, Andrew Carroll, Nyla A. Heerema,  
Julie M. Gastier-Foster, Brent Wood, Michael J. Borowitz, Naomi  
Winick, Stephen P. Hunger, and William L. Carroll

Disclosures: EAR receives research support (institutional) from Pfizer. MLL serves on the advisory board for Medisix Therapeutics. LAM is a consultant with Pfizer, Novartis, and Melinta Therapeutics. JMG receives research support from Bristol Myers Squibb and Incyte Corporation. SPH has received honoraria from Jazz Pharmaceuticals and Amgen, and consulting fees from Novartis. He owns common stock in Amgen. WLC serves on the DSMB of an Amgen sponsored clinical trial.

Contributions: SPH, WLC, MLL, NW and EAR designed the study. MD performed all statistical analyses. All authors analyzed and interpreted the data. ER drafted the initial version of the manuscript, which was edited and approved by all authors.
