Platelet HIF-2 α promotes thrombogenicity through PAI-1 synthesis and extracellular vesicle release

Susheel N. Chaurasia, Geeta Kushwaha, Paresh P. Kulkarni, Ram L. Mallick, Nazmy A. Latheef, Jai K. Mishra, and Debabrata Dash

Disclosures: None

Contributions: S.N.C. performed different experiments. G.K. performed nanoparticle tracking analysis and analysed results. P.P.K and S.N.C. performed animal experiments. R.L.M. provided blood samples of high altitude residents and interpreted results. N.A.L. and J.K.M. provided clinical samples and interpreted results. D.D. and S.N.C. designed the study, analysed data and wrote the manuscript. D.D. Supervised the entire study.
