Ephrin/Eph receptor interaction facilitates macrophage recognition of
differentiating human erythroblasts

Lea A. Hampton-O'Neil, Charlotte E. Severn, Stephen J. Cross, Sonam
Gurung, Catherine D. Nobes, and Ashley M. Toye

Disclosures: The authors declare no competing interests.

Contributions: LH-ON and AMT designed the experiments. LH-ON conducted the majority of the experimental work. SJC developed and optimised the image analysis programme. SG conducted experiments. CS optimised the macrophage differentiation cultures, conducted experiments, edited the paper and produced figure 6. CN provided Eph/ephrin experimental advice. LH-ON and AMT wrote the paper. All authors read and edited the final version of the manuscript.
