Profiling the mutational landscape of coagulation factor V deficiency

Elvezia Maria Paraboschi, Marzia Menegatti, Valeria Rimoldi, Munira Borhany, Magy Abdelwahab, Donato Gemmati, Flora Peyvandi, Stefano Duga, and Rosanna Asselta

Disclosures: Prof. Flora Peyvandi has received honoraria for participating as a speaker at satellite symposia and educational meetings organized by Bioverativ, CSL Behring, Grifols, Novo Nordisk, Roche, SANOFI, Sobi, Spark Therapeutics, Sysmex, and Takeda and she is member of Advisory Board of SANOFI. All the other Authors state that they have no interests which might be perceived as posing a conflict or bias.

Contributions: All the authors participated in the analysis and interpretation of data, and in revising the manuscript. EMP and VR performed the mutation screening and functional studies. FP, MM, MB, MA, DG enrolled the patients in the study, collected the clinical history, and evaluated the clinical phenotypes. SD and RA conceived and supervised the entire study. RA wrote the manuscript.
