Version 3
IL6R-STAT3-ADAR1 (P150) interplay promotes oncogenicity in
1q21(amp) multiple myeloma

Phaik Ju Teoh, Tae-Hoon Chung, Pamela Y.Z. Chng, Sabrina H.M.
Toh, and Wee Joo Chng

Disclosures: None

Contributions: P.J. Teoh designed the study and performed the wet experiments, analyzed and interpreted data and was entirely involved in the manuscript preparation, from drafting, editing to final submission. T.H. Chung was involved in bioinformatics analyses of MM datasets and contributed to the preparation of some of the main figures. P.Y.Z. Chng was involved in performing the experiments and troubleshooting. S.H.M. Toh processed fresh patient samples and prepared CD138+ plasma cells for further experiments. W.J. Chng initialized the study, provided study direction, proofread and finalized the manuscript.
