Andrés Novo, Marta Cervera, Antonio García-Guiñón, Jordi Juncà,  
Juana Ciudad, Alberto Orfao, and Josep-Maria Ribera

Disclosures: This project was supported by the "Asociación Española Contra el Cáncer", AECC (project ref: GC16173697BIGA), PI14/01971 FIS, Instituto Carlos III, CERCA Program/Generalitat de Catalunya, 2014-SGR225 (GRE), Obra Social "La Caixa". This work was also partially supported by FEDER funds from the ISCIII (PT13/0010/0026, CIBERONC (CB16/12/00284 and CB16/12/00400), Madrid, Spain). P. Barba was supported by the Instituto de Salud Carlos III FIS16/01433 and PERIS 2018-2020 from Generalitat de Catalunya (BDNS357800) grants.

Contributions: E. Genescà, M. Morgades and JM Ribera designed the study, analyzed the data and wrote the manuscript. E. Genescà performed immunophenotypic central review. M Morgades performed statistical analyses. P. Montesinos, P. Barba, C. Gil, R. Guàrdia, M.J. Moreno, D. Martínez-Carballeira, I. García-Cadenas, S. Vives, J. González-Campos, M. Díaz-Beya, S. Mercadal, M.T. Artola, A. Cladera, M. Tormo, A. Bermúdez, F. Vall-Llovera, P. Martínez, M.L. Amigo, S. Monsalvo, A. Novo, M. Cervera, and A. García, provided clinical data. C González-Gil, L. Zamora and J.L. Ramírez performed FLT3 mutational screening. J. Ribera, J. Juncà and J. Ciudad help to analyze data and A. Orfao reviewed the manuscript. All authors have read and approved the manuscript. The authors declare no competing financial interests.
