Bone marrow findings in Erdheim-Chester disease: increased
prevalence of chronic myeloid neoplasms

Gaurav Goyal, Aishwarya Ravindran, Yuanhang Liu, Rong He, Mithun
V. Shah, N. Nora Bennani, Mrinal M. Patnaik, Karen L. Rech, and
Ronald S. Go

Collaborative Groups: Mayo Clinic Histiocytosis Working Group
(Matthew J Koster, Caroline J Davidge-Pitts, Julio C Sartori-Valinotti,
Robert Vassallo, Jay H Ryu, Jason R Young, Jithma P Abeykoon, W
Oliver Tobin)

Disclosures: The institution has received research funding on behalf of M.M.P from Stem
Line Pharmaceuticals. None of the other authors have any conflicts of interest to disclose.

Contributions: G.G. and A.R. collected the clinical data; G.G. wrote the manuscript draft;
Y.L. analyzed the bioinformatics data and contributed in writing the manuscript draft;
histopathologic images and text were provided by R.H. and K.L.R.; M.M.P provided crucial
scientific input and expertise on chronic myelomonocytic leukemia; A.R., M.M.P., M.V.S.,
N.N.B, and R.S.G. critically revised the manuscript for important intellectual content. All
authors were involved in drafting the manuscript and approved the final version.
