Version 3

Identification of biallelic germline variants of *SRP68* in a sporadic case with severe congenital neutropenia

Barbara Schmaltz-Panneau, Anne Pagnier, Séverine Clauin, Julien Buratti, Caroline Marty, Odile Fenneteau, Klaus Dieterich, Blandine Beaupain, Jean Donadieu, Isabelle Plo, and Christine Bellanné-Chantelot

Disclosures: The authors declare no conflict of interest

Contributions: Barbara Schmaltz-Panneau = performed most of the research and analyzed functional data. Anne Pagnier = provided samples and clinical data. Séverine Clauin = performed and analyzed molecular experiments. Julien Buratti = performed bioinformatics analysis. Caroline Marty = performed fibroblast culture and western blot. Odile Fenneteau = performed cytological analysis. Klaus Dieterich = provided samples and clinical data. Blandine Beaupain = collected clinical data. Jean Donadieu = was involved in the clinical part and contributed to intellectual input. Isabelle Plo designed the study, analyzed the data and critically reviewed the paper. Christine Bellanné-Chantelot designed the study, analyzed the data and wrote the paper.
