Version 3

Tuning mTORC1 activity dictates the response of acute myeloid
leukemia to LSD1 inhibition

Amal Kamal Abdel-Aziz, Isabella Pallavicini, Elena Ceccacci, Giuseppe Meroni, Mona Kamal Saadeldin, Mario Varasi, and Saverio Minucci

Disclosures: AKA has been awarded a fellowship by AIRC (Italian Association for Cancer Research). Work in SM's lab is supported by AIRC, CNR (Epigen Flahsgip Project), Regione Lombardia (Progetto Neon) and Horizon 2020 (TRANSCAN DRAMA) grants. The funders had no role in study design, data collection and analysis, decision to publish, or preparation of the manuscript. AKA and SM have filed European Patent Application (No:18194359.8, Date of filing: 13.09.18). The authors declare that they have no competing financial or personal interest or any kind of conflict of interest relevant to this study.

Contributions: AKA and SM conceived the work. AKA designed and performed experiments, analyzed and discussed results, and wrote the manuscript, IP: helped in in vivo experiments, EC: performed bioinformatic analysis, GM and MV: synthesized DDP38003 compound, MKS: performed experiments, SM: designed experiments, supervised the entire study, provided intellectual and technical support and contributed to manuscript writing and editing.
