Supplementary Figure Legend

Supplementary Figure 1. Network view representation of the linear disease trajectories for pulmonary embolism (I26) using the Danish Disease Trajectory Browser (DTB) created by Siggaard et al.⁴⁸ Nodes correspond to ICD-10 codes and each colour represents ICD-10 index chapters. The arrows represent a statistically significant directionality between two diagnosis codes.⁴⁸ Numbers describe how many patients follow the trajectories. Abbreviation=ICD-10 = International Classification of Diseases, 10th Revision.
